

# *Peer tutoring*

@sostegno\_speciale

# *Before to start*

## *PRE-TEACHING VOCABULARY*

- *peer tutoring - apprendimento tra pari*
- *to struggle - essere in difficoltà*
- *to aid - aiutare*
- *to learn - imparare*

**@sostegno\_speciale**

*What is it?*

@sostegno\_speciale

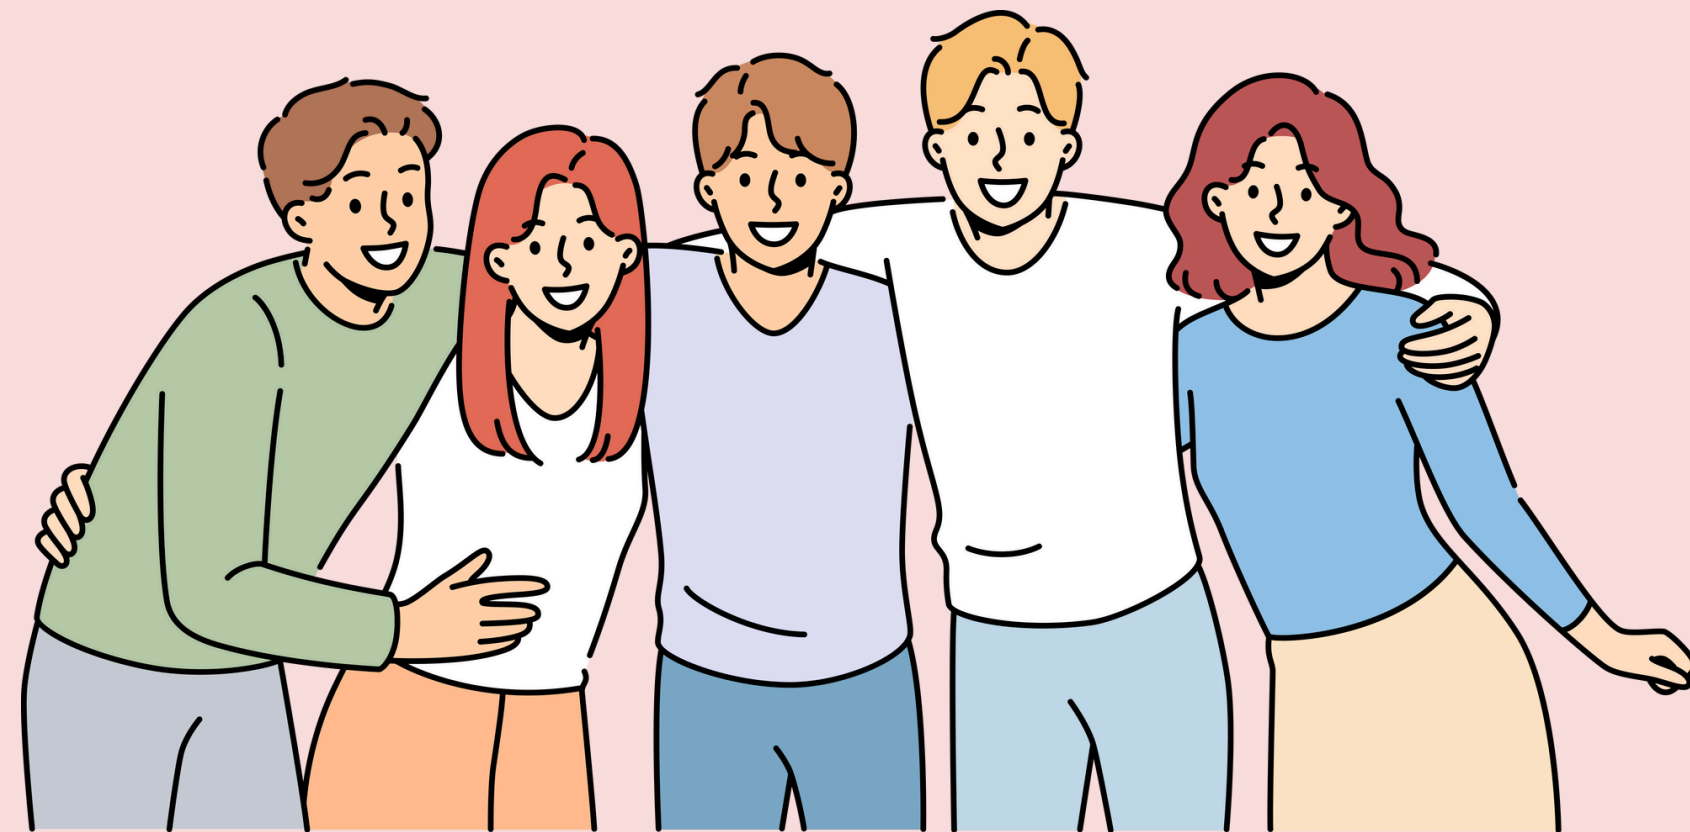

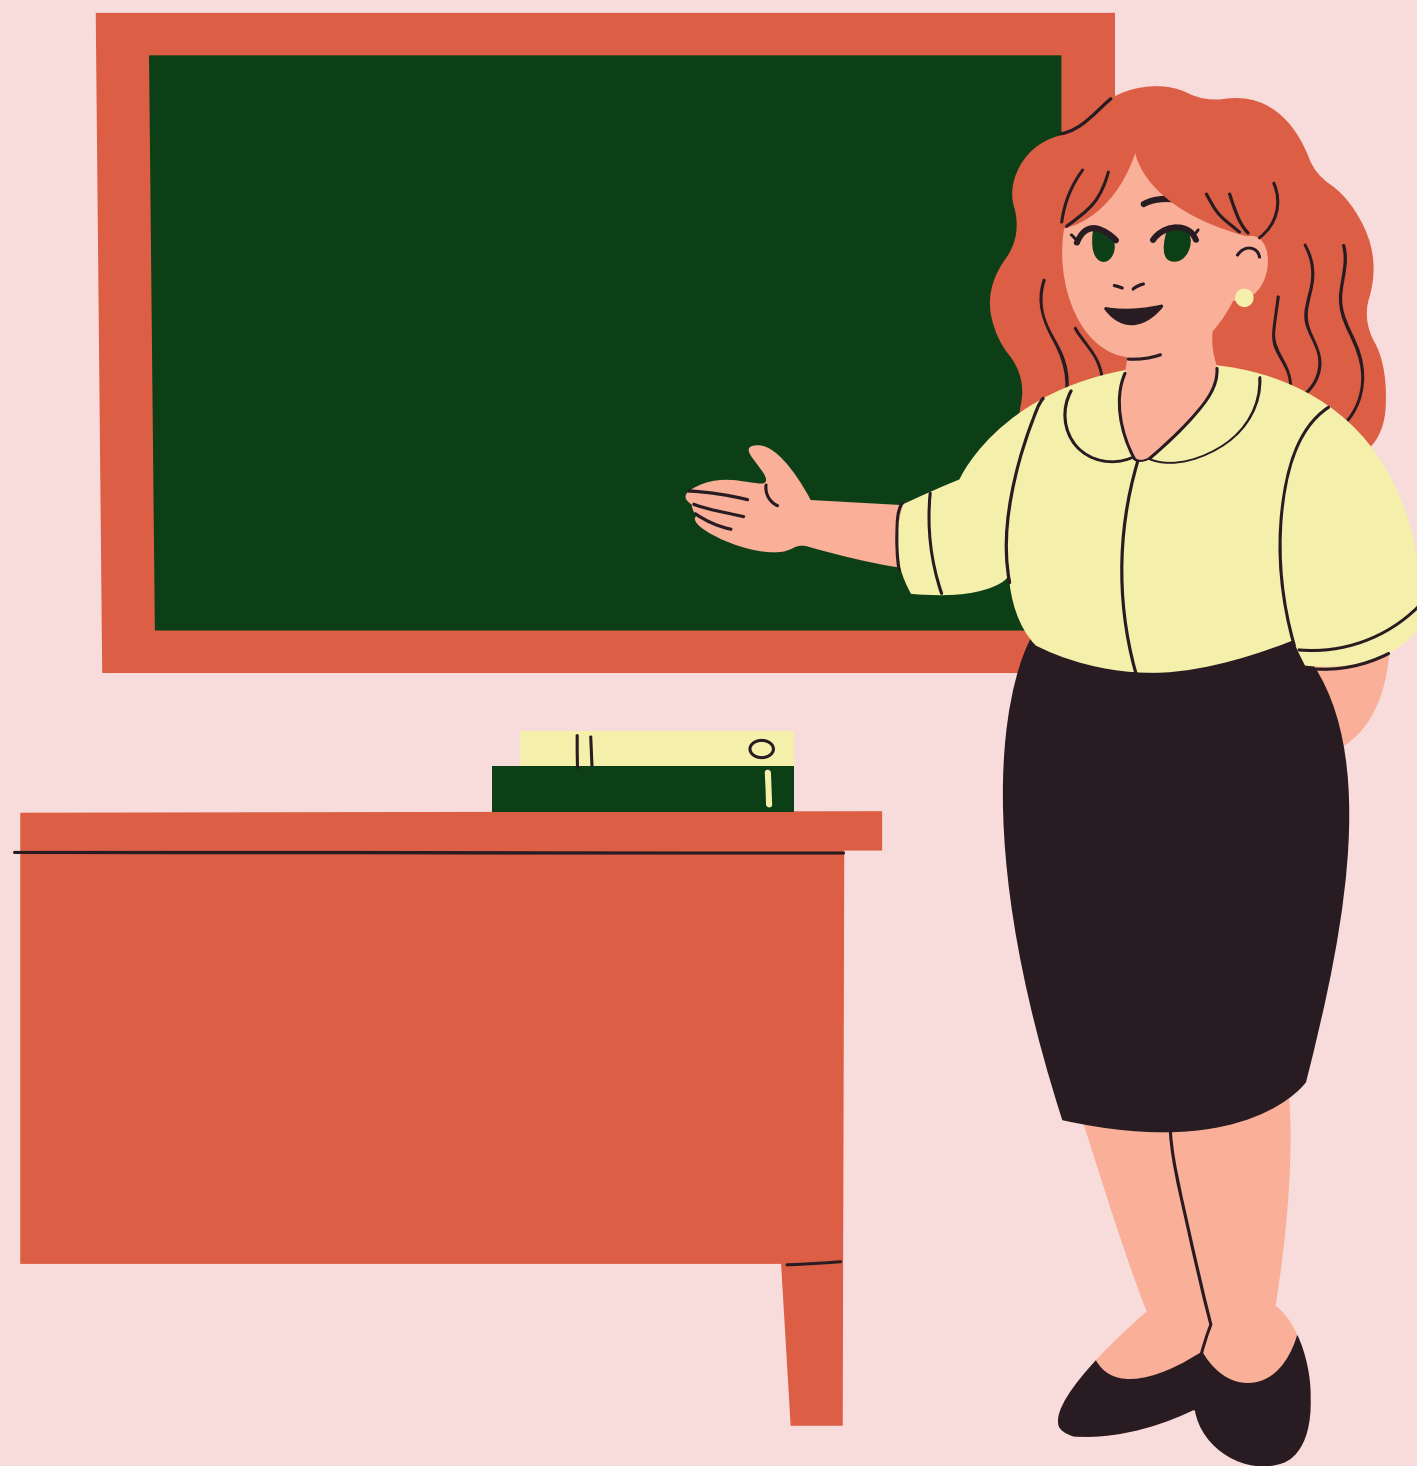

# *Peer Tutoring*

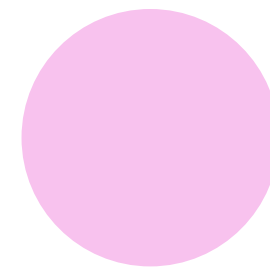

is a type of learning practice where students assist their peers in grasping various academic concepts. It involves students acting as tutors and instructing their classmates.

@sostegno\_speciale

*The teacher*

The teacher  
designates  
a student who is  
doing well  
to tutor a student  
who is  
performing below

@sostegno\_speciale

*Which are the  
benefits of peer to  
peer tutoring?*

1

Increase in confidence for  
both the students involved

2

The assisting student gains  
more confidence

3

The struggling student gets  
more time to learn

@sostegno\_speciale

*What are the  
benefits of peer to  
peer tutoring?*

4

This strategy aids in giving weaker students individualised attention

5

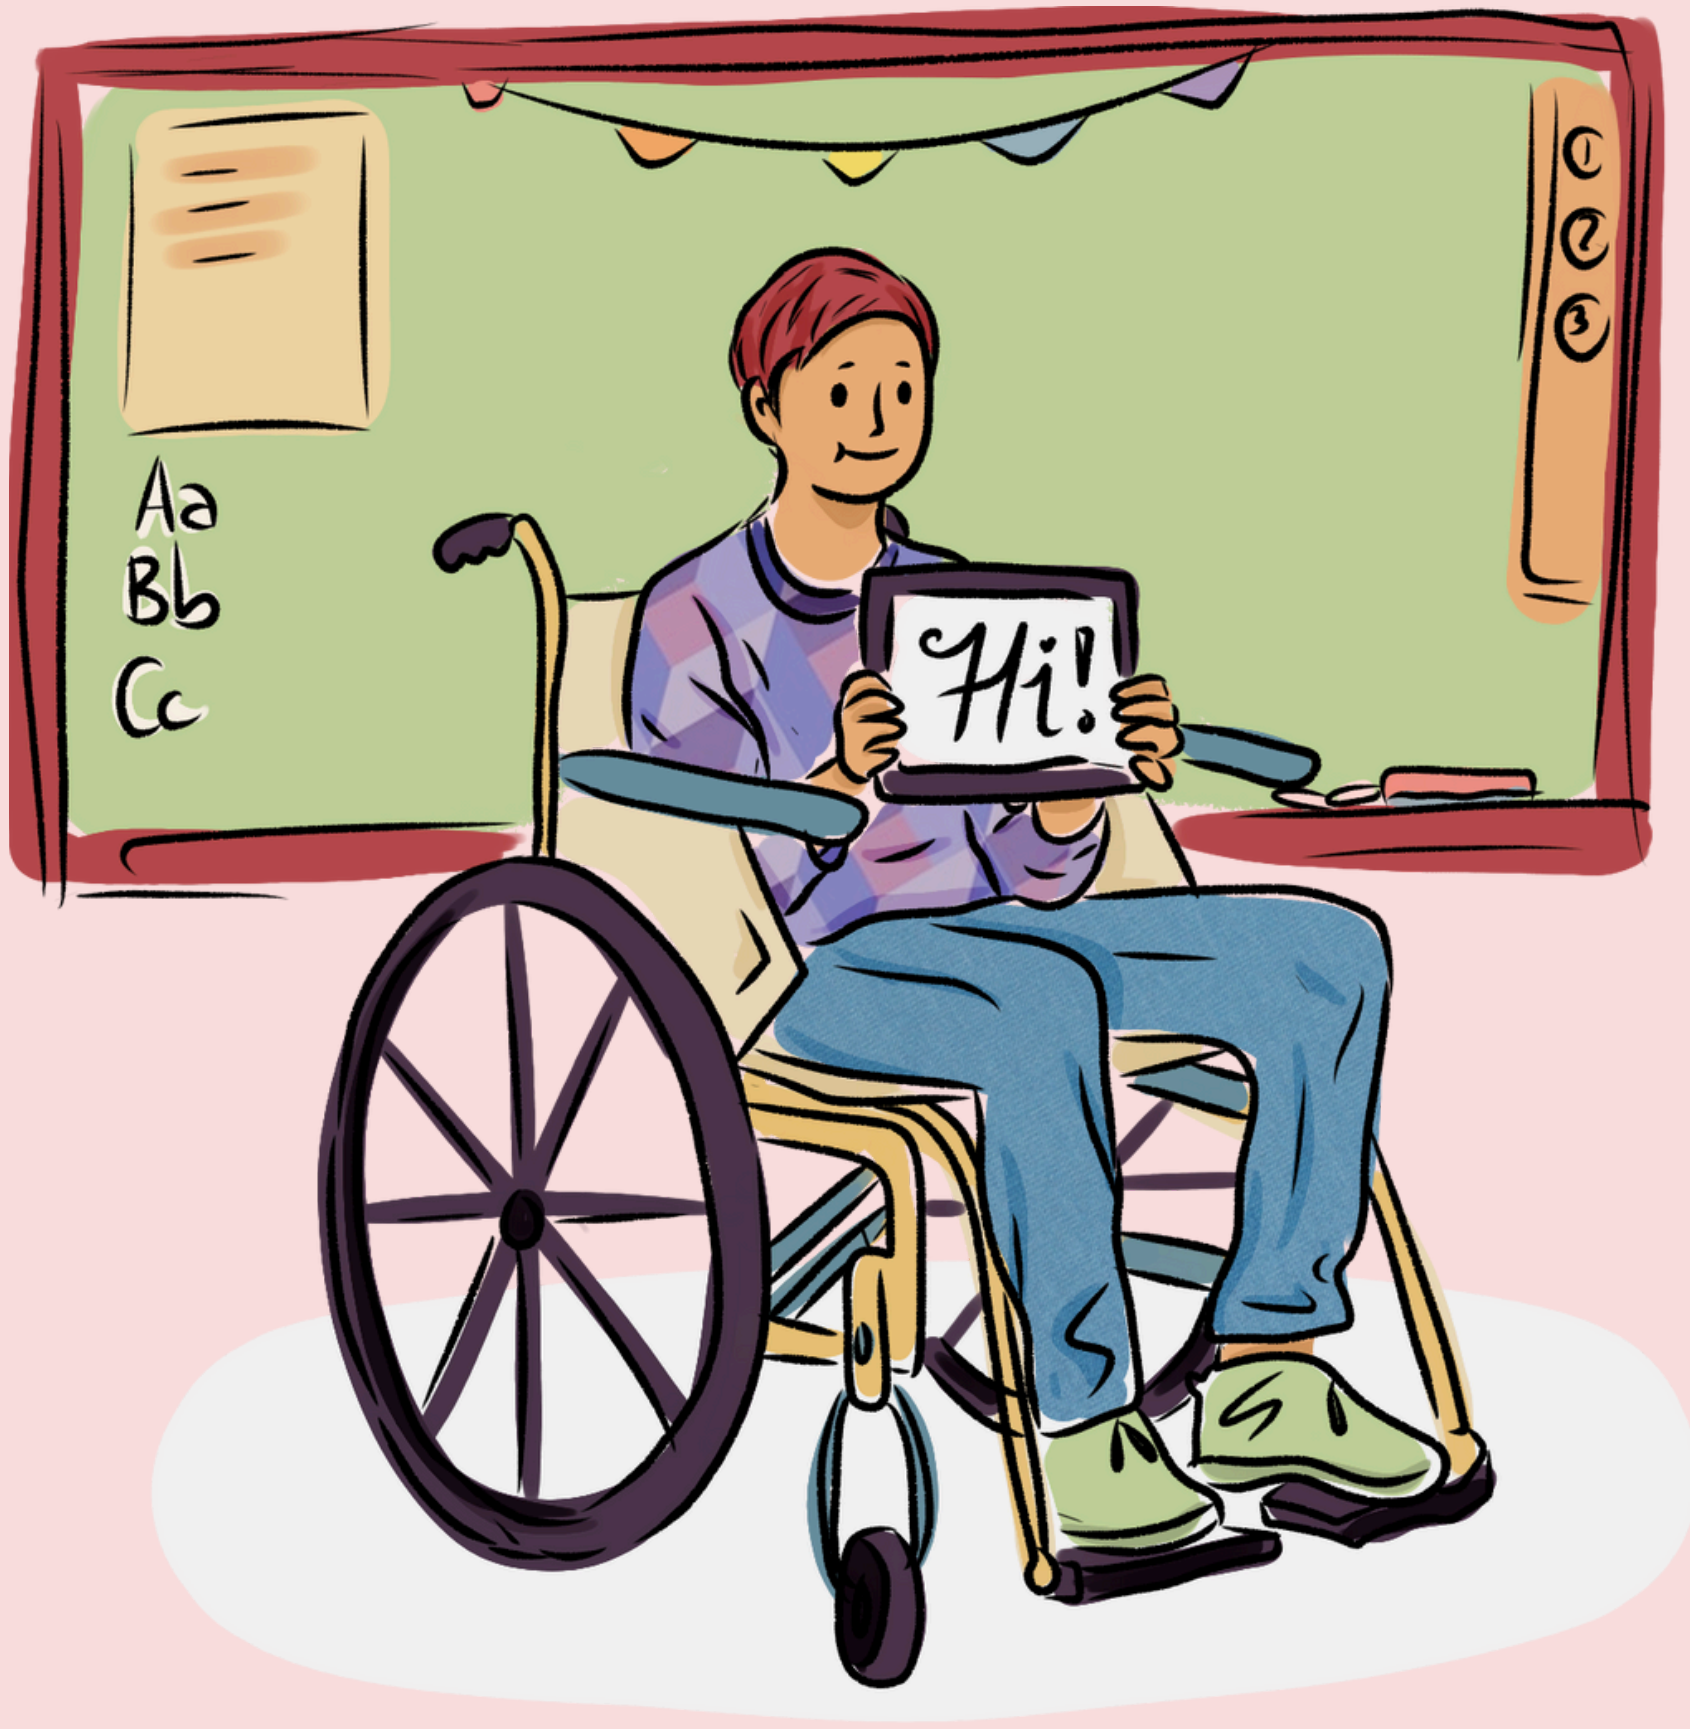

It improves social and interpersonal skills

6

Empathy and compassion among learners

@sostegno\_speciale

*Inclusion*

## *Peer tutoring as means to inclusion*

Some students with disabilities respond better to peers than adults. Students with disabilities get more individual attention than one teacher can provide on their own.
